

TARIFF PICTURES.

This is how Kansas City, in Bourbon Missouri, fared under ten years of Protection. Aggregate wages paid manufacturing employees in 1880, \$1,420,715. Wages paid in 1890, \$6,360,323.

Assessed valuation of the city in the meantime grew from \$10,373,360 to \$48,465,557.

—New York Press.

This country produced \$33,000,000 in gold last year. We can easily spare a few millions for Europe.

+

Mrs. League alleges that Hoke Smith hired a man to throw eggs at General Weaver in Georgia. Is this another hoax myth?

+

The New York Sun has made a discovery, and put it in a sentence that should have been in Mr. Cleveland's second inaugural. It is that there are more Democrats than offices.

+

Jerry Shuck of Posey township, Ind., is worth more than the average run of Slucks. He has procured a license to marry for the sixth time, and is only 75 years of age.

+

The President expresses the tenderest interest in the Indian, but has not one word of sympathy for the workmen whose wages and occupations will be jeopardized by the Free-trade policy he proposes to inaugurate.

+

A special agent of the Treasury Department has made a report on the tin plate industry in the United States, showing that during the last quarter of 1892 thirty-two firms produced 10,756,491 pounds of tin and tene plates, against 10,532,723 pounds during the previous quarter.

+

If, as Mr. Cleveland asserts, "every American citizen must contemplate with the utmost pride and enthusiasm the growth and expansion of our country" and "the wonderful thrift and enterprise of our people," how does he figure out that "they have been led away from the paths of contentment and prosperity?"

+

The Speaker of the House may be in ordinary times the office next in importance to the Presidency, but it will be less important than the Chairmanship of the Ways and Means Committee of the Fifty-third Congress. The man whose name becomes attached to the forthcoming Tariff bill will leap into world wide notoriety.

+

Workingmen should not fail to understand that when Grover Cleveland, in cumbrous phrase, talks about tearing "aside the delusions and misconceptions which have blinded our countrymen to their condition under vicious Tariff laws," the object he has in view is the tearing down of American wages to the European level.

+

Not long ago the iron manufacturers of Great Britain met and agreed to restrict production for the sole purpose of putting up prices. This accounts for the immense falling off in the English iron output accompanied by rising prices, while iron prices in this country have continuously fallen. A little occurrence of this kind hardly excites comment in Free-trade Great Britain. If it happened in this country our Free-traders would make the welkin ring with their howling about trusts.

+

Ex-Attorney General Samuel P. Colt of Rhode Island regards President Cleveland's appointment of Gresham as the most audacious personal experiment of the time. "It may prove a great success politically, but it may be a most emphatic failure." Lord Charnwood tried the same thing and was equally foolish in his failure. Since this time none of the English Prelates have accepted it. Even Mr. Gladstone, with all of his liberal spirit and his great statesmanship, has not appointed any one out of his party to his Cabinet."

+

During 1892 the railroads of this country carried 330,000,000 passengers and killed only 293 of that vast number. In an elaborate article some years ago Charles Francis Adams showed that so far as accidents are concerned the safest place in the world was a passenger railway train going at its greatest speed. In this regard it is to be noted that the trains in 1892 that brought death to only 293 of the 330,000,000 who rode inside, killed nearly 10,000 who were on the outside of the armored trains, but in homicide proximity thereto.

CAN and Bulk Oysters at old prices; also fresh Fish received daily at John Wheeler's.

ALL persons holding tickets for Acker's Comedy and Kentucky St. Tolocas present to Power & Ryndalls and receive same.

PERSONS who receive Money Orders will oblige the Postmaster very much if they will present them prompt for payment. Paraphrasing the old proverb, "It is more pleasant to pay out than to take in."

PUBLIC LEDGER

FIRST YEAR.

If you have friends visiting you, or if you are visiting anywhere on a visit, please drop us a note to that effect.

J. L. Dumas of Mobile is in the city.

J. W. Parker is here from Lano, Kansas.

J. J. Shockley was in Paris this week.

W. J. Recue of Pittsburgh is in the city.

O. E. Wampler of Baltimore was a yesterday visitor.

L. W. Baker of Portsmouth was in town last night.

James S. Huff was up yesterday from Cincinnati.

E. J. Nowey of New York is a guest of the Central.

Barnes of Cleveland is registered at the Central.

Ex-Sheriff Perry Jefferson was in the city yesterday.

R. Rapp of Philadelphia was in the city yesterday.

J. W. Lee of Flemingsburg was in the city yesterday.

John Wilson of Maddox, O., was in the city yesterday.

E. J. Van Baalen of Pittsburgh is a guest at the Central.

Dr. W. H. Herd of Orangeburg was in the city yesterday.

John Hanbrick of Tollesboro was in the city yesterday.

C. A. Taylor of Concord was a Mayfield visitor yesterday.

Captain A. C. Rossop returned to New York after the inauguration.

E. Mundell and F. J. Crumpler of Columbus, O., are in the city.

Captain W. G. Dearing of Flemingsburg was at the Central yesterday.

Dr. Emery Whisker of Covington has been up to visit his parents here.

Miss Nettie Robinson has returned from an extended visit to Staunton, Va.

Miss LuLu Bett is attending the Conservatory of Music, Cincinnati.

Mr. and Mrs. Frank Armstrong are visiting the latter's parents at Millersburg.

Miss Stella Cord of Bath county is visiting Miss Allie Stockdale of Walnut street.

Mrs. L. Lewis Patton has returned from a leave to visit Miss Tilly Hanson at Covington.

P. Kennedy of Hatavia, O., was the guest of his sister, Mrs. H. Martin last week. J. E. Hunter and wife have returned to their home near Washington from an extended Southern trip.

Walker C. Wormald stopped off at Charlottesville, Va. on his way home from Washington, to visit relatives.

Latko Thomas is in New York, having returned there from Washington. He will be absent about a week.

J. F. Woombs and F. V. Vincent of Millersburg were yesterday guests of James Shackson at the St. Charles.

Judge James P. Harbeson went to his home at Flemingsburg yesterday afternoon to remain until to-morrow morning.

E. A. Robinson reached home yesterday afternoon, having taken in Boston, New York, Washington and the inauguration.

Miss Tilly Christopher, after a pleasant stay at Miss Louisa Bruder of this city, will leave to-morrow for her home at Cincinnati.

Mr. and Mrs. Davis, formerly Miss Maggie Dimitri of this city, are here from Marion, O., on a visit to Mrs. Jane Atkinson of West Second street.

Anderson Finch and family, who have been at Thomastown, O., during the winter, will leave for home this morning, arriving probably to-morrow evening. Mr. Finch's health is no better.

An epidemic of mumps is on at Louisville.

GREEN GOODS circulate besprinkle the Big Sandy Valley, but nobody has taken the bait.

ELMER J. BLOCK, aged 25, died at Springfield, O., from excessive cigarette smoking. His widow and baby package boy, Yourgine, will be whitewashed green.

A FRANKFORT special to The Louisville Courier and the officers of Court are requested to meet at the Courthouse next Monday at 10 a.m. to consult about rearranging the trial of the Courtland case and the Circuit Court. THOMAS R. PRISTER, County Judge.

SINCE President Cleveland's selection of Mr. Curtis as the new Postmaster of Covington, the office-seekers have been looking upon that department as their especial meat. Now comes the shocking development that it is a status which requires that the appointments of that department shall be apportioned among the several states.

MAYSVILLE, KY., WEDNESDAY, MARCH 8, 1893.

ONE CENT.

In forty-eight years there has been but one fair day for the inauguration exercises. That was eight years ago when Cleveland was first inaugurated.

The Newport Street Railway Company has been unable to make money out of its employes. The men do not mind losing their position so much as they do the fact that no reason is given why their services are no longer needed.

The railroad mileage of Connecticut is greater according to area than any country in the Union. The state has a larger area than Iowa, Massachusetts, New Jersey, Ohio and Pennsylvania, have, each of them, a larger trackage to the square mile than Germany, France, Holland and each of the states, except Iowa and New York, has a larger relative trackage than Great Britain.

The people have the promise of the Internal Improvement Committee, made in our annual report, that as soon as the weather sufficiently settles, the northern and southern streets will be paved in the best manner possible. From past experience it has been found utterly impracticable to put a coating of rock on during the winter months. Any work done in this direction in the past two years would have to be done over again.

The Fifty-second Congress enacted 669 bills, 624 of which coming from the House and 25 from the Senate.

COLONEL M. H. CHAMP, representing the mining and forestry department of the State, has been appointed to the Fair. He has ranged to have the floor of the department laid with tiling made from the famous Graves tile.

The people have the promise of the Internal Improvement Committee, made in our annual report, that as soon as the weather sufficiently settles, the northern and southern streets will be paved in the best manner possible. From past experience it has been found utterly impracticable to put a coating of rock on during the winter months. Any work done in this direction in the past two years would have to be done over again.

late. He is talking to peo-
ple long before your store is
open and long after your
store is closed.

AUSTIN GIBBONS
Debates Mike Daly in Thirty-One Round.

New Orleans, March 8.—Austin Gibbons punched out Mike Daly in thirty-one rounds in the arena of the Crescent City Athletic club Tuesday night. At the start of the fight, Daly was a disappointment. There was plenty of life and action throughout the contest, but the blows of both men lacked steam and the finish was a long while coming.

Gibbons was in excellent condition, but in the early part of the fight, about the tenth round, injured his left hand so badly that it was of little service during the latter stages. He depended therefore entirely upon his right, and was a long time getting it into the best possible spot. Daly clung tenaciously to the rules and resorted to foul tactics when his case seemed a failure. He had to be warned by the referee and Police Capt. Barnett. The finishing touch was Daly's hand-swing on the jaw. Daly made a game showing. They fought for a purse of \$4,500, of which Daly will get \$600.

The Physician Executed From Blame
Boston, March 8.—The house physician of the city hospital caused Fanny Shar's death, January 29, by administering a fatal dose of morphine. It developed that the physician would have died any way in a few days from the result of an attempted suicide, as the judge pronounced the physician from all blame.

A coroner seriously ill.

London, March 8.—The countess of Surrey, daughter of the first Marquis of Argyle, who married the 2nd Sydeney, in 1892, is lying seriously ill. As she is unable to take any nourishment her death is expected at any moment. The cardinals became extint with the death of her husband.

Town Patriot Destroyed by Fire
Mexico, Mo., March 8.—Clark, a town in the state of Missouri, was a Democratic welcome, but they are here to stay. President CLEVELAND will have for his use, to study and as a source of needed knowledge on many a public question, the completed results of a National census more elaborate, minute and comprehensive than any ever before taken; and for this he will have President HARRISON's Administration to thank.

When Cleveland gave place to Harrison the American flag was unknown in the steamship traffic between this country and Europe and between North and South America. When HARRISON gave place to CLEVELAND there was an American merchant marine, partly already astir and the remainder under contract, amounting to twenty-one steamships, costing \$17,000,000. Included in the list are seven transatlantic vessels of 10,000 tons each, that, when all are completed, will constitute a fleet of mail and passenger steamers swifter and more substantial and splendid than any other now known to the seas. Of course, the policy that brought about this new order of things was bitterly opposed by the Democratic party in Congress. It remains to be seen whether that party will dare to strike it a deadly blow.

The Ledger and One Killed.
Cleveland, March 8.—Tuesday afternoon a fatal accident occurred at Jackson park in which three men were fatally hurt and one killed. The men were workers engaged upon the "specatorium." The gudgeon pin of a hoisting derrick broke and a heavy beam fell, pinning the men beneath it.

TRouble AHEAD

A Great Task Confronts Secretary Carlisle.

There is Practically No Free Gold on Hand, It is Said.

He Must Choose Between Issuing Bonds and Trenching Under the Reserve-Easy Money Policy Says the Treasury Was Down to Rock-Roll Tuesday.

WASHINGTON, March 8.—Ex-Secretary Charles Foster said this evening that the treasury was down to rock-bottom Tuesday. Mr. Carlisle finds himself confronted with a great responsibility to maintain the gold basis, and a man of less ability might find the task a very difficult one.

It is agreed that before he has been two days in his office he will find it necessary to choose between issuing bonds and trenching under the gold reserve. The ex-secretary said that the department was now practically to the gold standard, and that he must issue bonds of gold. He did not regard the situation as alarming, however, as all the excitement about the gold shipment appeared to have subsided.

It was said, a better condition than he expected to find at this time, and that he would be able to hold a week or more ago. Without saying it in so many words, he intimated that Mr. Carlisle would have to trench upon the \$100,000,000 gold reserve or issue bonds.

Asked if he did not think bonds

would have to be issued, he replied that Mr. Carlisle might, instead of that, use some of the reserve. He did not want to make any predictions as to what his successor would do, but he was confident that he would be able to come to a decision to preserve the gold made by meeting all demands for gold made upon the department.

He said that Mr. Carlisle undoubtedly had a right to use a part of the gold reserve if he needed to do so. Both the secretary and Mr. Foster said he would turn over to the new secretary about \$29,000,000, consisting of national bank reserves and subsidiary coins and disbursing officers' balances. Against this are the estimated expenses of getting up the gold reserve.

He said, "Should have increased the whisky fifty cents and given us a chance to replenish our stock of money."

He said that for gold in particular he

demanded for gold in particular.

It is the natural demand.
